

## **EXHIBIT 2**

**EXHIBIT 2****TELEBRANDS' PROPOSED CONSTRUCTIONS**

| <b>U.S. Patent No. 6,565,232<br/>Claim Language</b>   | <b>Telebrands' Proposed Constructions</b>   |
|---|---|
| <i>Note: The agreed upon claim terms for construction are identified in bold and underlined</i>   |   |
| <p>1. Apparatus comprising: a <b><u>commercial card-sized chassis</u></b></p> <p>having an opening;</p> <p>a magnifying lens disposed at the opening;</p> <p>a switch <b><u>carried by the chassis</u></b>;</p> <p>and a light <b><u>carried by the chassis</u></b> that is capable of being actuated to generate light in response to actuation of the switch,</p> <p>in which the light is disposed for projecting light directly away from the magnifying lens for illuminating objects confronting the magnifying lens.</p> | <p><b>commercial card-sized:</b> means capable of being carried in a wallet sleeve specifically sized to hold credit cards and the like.</p> <p><b>chassis:</b> means a frame for supporting or incorporating convenience features, including visual aid and illumination.</p> <p><b>carried by:</b> means supported by or attached to.</p> |
| <p>2. Apparatus of claim 1, wherein the <b><u>chassis</u></b> includes opposing major faces and</p> <p>the light is disposed so that it is capable of directing light away from one of the opposing major faces.</p>  | <p><b>chassis:</b> See claim 1</p>  |
| <p>14. Apparatus comprising: a <b><u>commercial card-sized chassis</u></b></p> <p>having opposing major faces;</p> <p>a switch <b><u>carried by the chassis</u></b>;</p> <p>a light <b><u>carried by the chassis</u></b> that is capable of being actuated to generate light in response to actuation of the switch; and</p>  | <p><b>commercial card-sized:</b> See claim 1</p> <p><b>chassis:</b> See claim 1</p> <p><b>carried by:</b> See claim 1</p>   |

|   |                             |
|---|-----------------------------|
| the light disposed at one of the opposing major faces for projecting light directly away from and illuminating objects confronting the one of the opposing major faces. |                             |
| 15. Apparatus of claim 14, further including: an opening through the <u>chassis</u> ; and a magnifying lens disposed at the opening.                                    | <b>chassis:</b> See claim 1 |
